Co-Innovated with SAP®

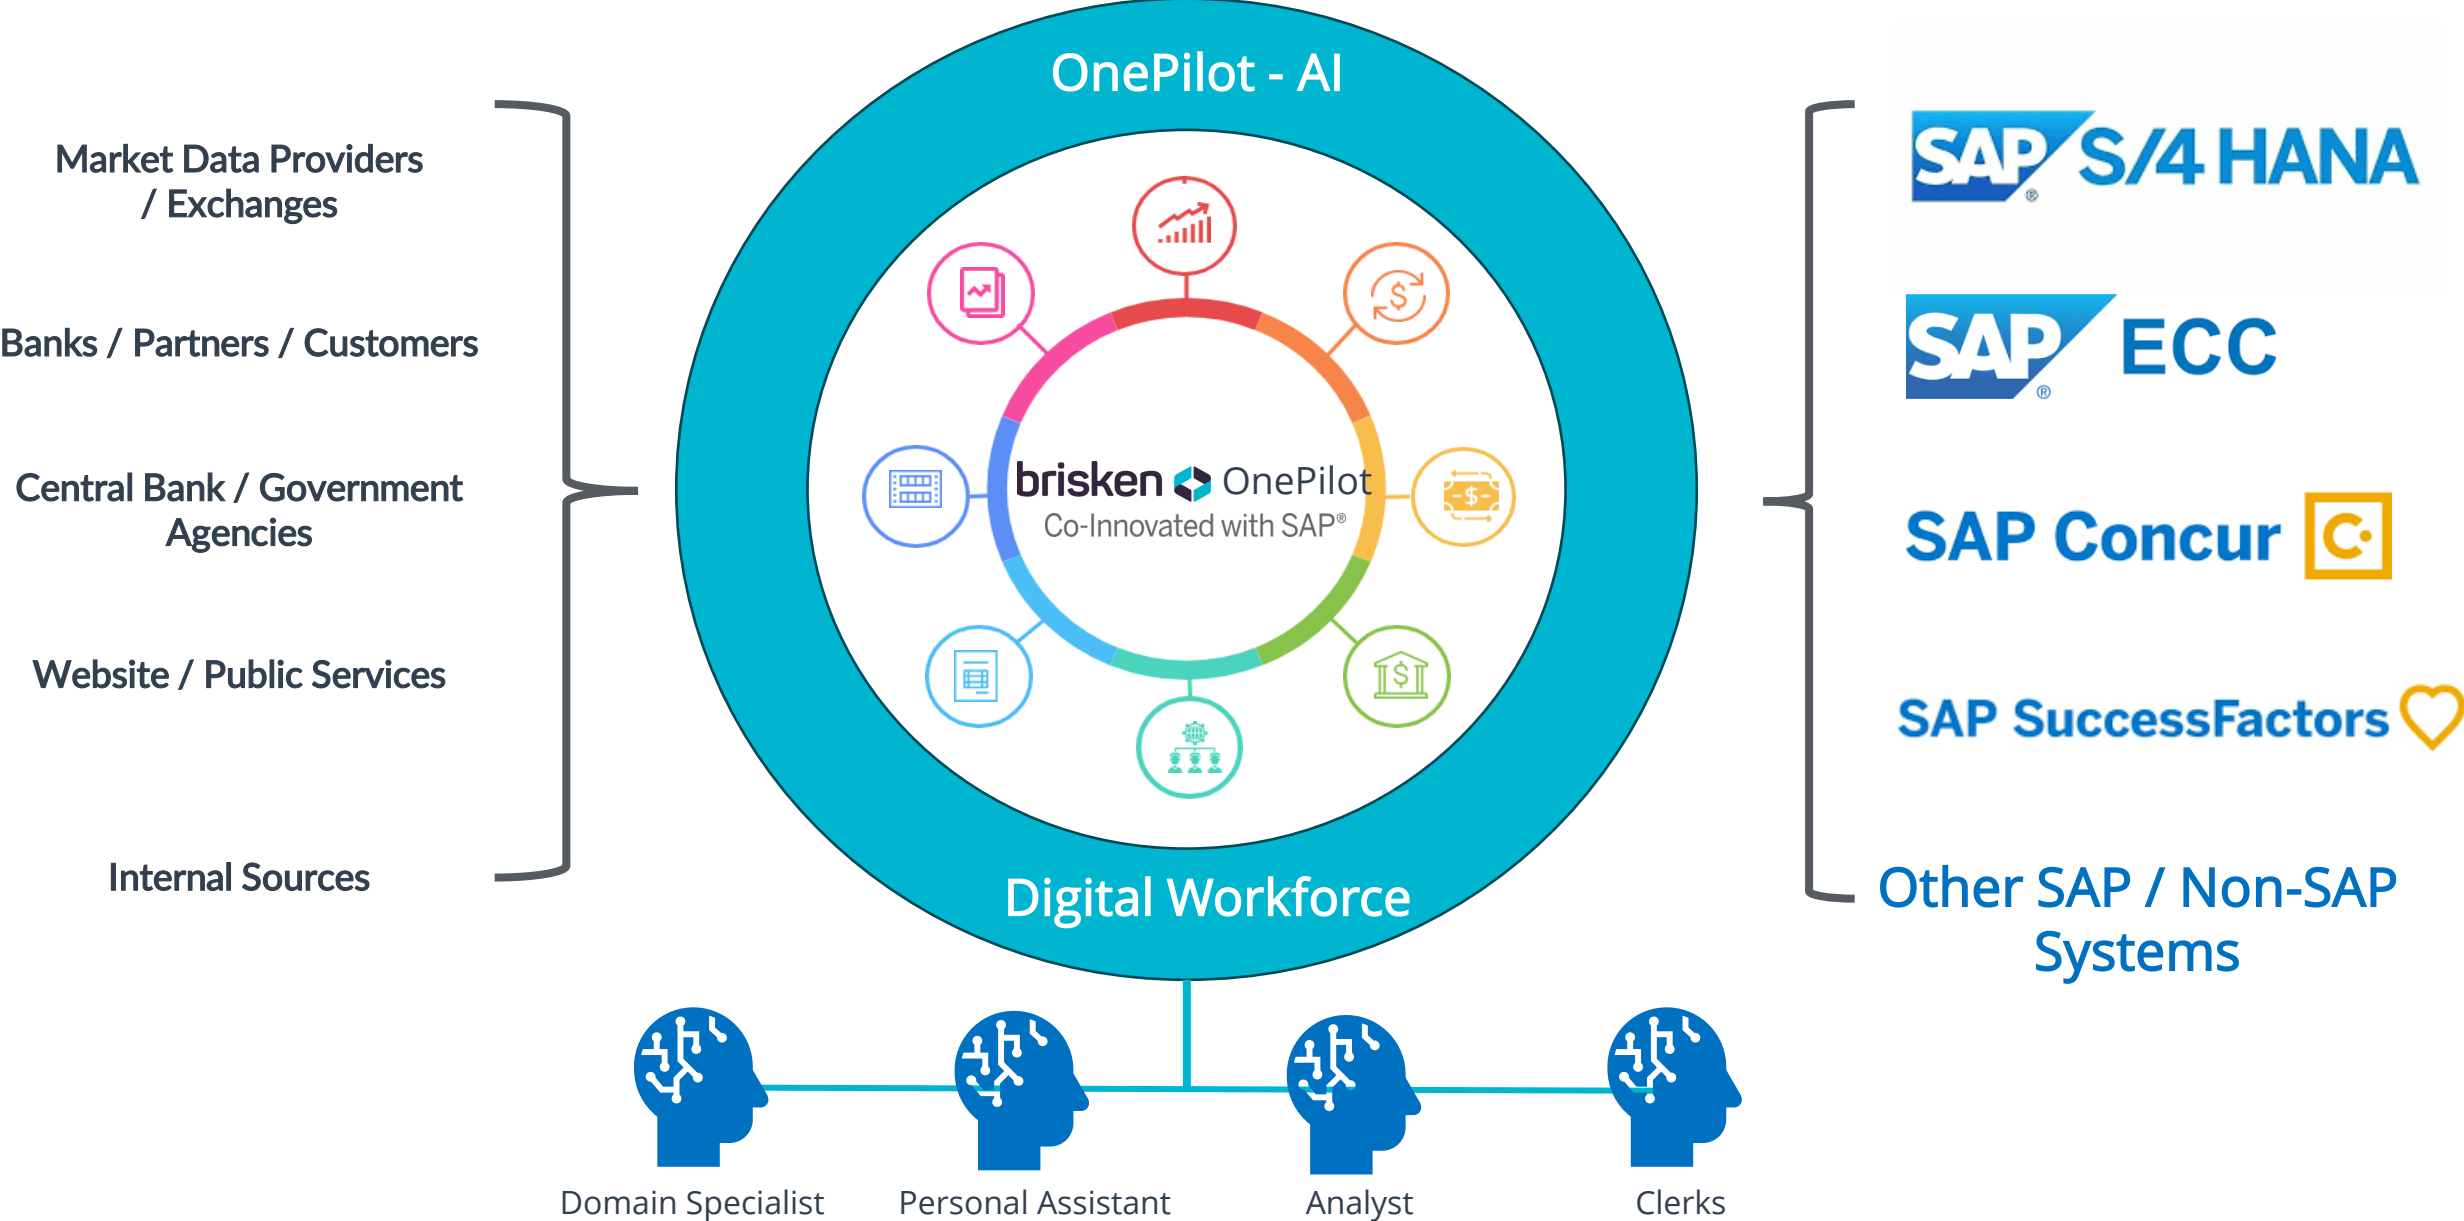

# Brisken OnePilot: AI - Innovation

- **Groundbreaking Innovation Redefining Business Operations**
  - Combining data integration, process automation, data governance, and the extraordinary capabilities of Large Language Models (LLM AI, such as ChatGPT).
- **Chat-Like Interaction**
  - Dynamic, chat-like interactions with your digital co-worker. BRISKEN OnePilot brings a whole new level of ease and efficiency to your daily activities.
- **Personal Digital Workforce / Co-Worker**
  - Create your very own digital co-worker, a tireless and diligent assistant ready to support and streamline day-to-day operations, enhancing your productivity and work experience.
- **Seamless Integration**
  - Automate processes across systems, platforms, and apps. BRISKEN OnePilot bridges the gap between your various tools and processes, creating a harmonious automated workflow that makes your tasks smoother and more efficient.
- **Powerful Suite of Fully Integrated Business Operations and Automation**
  - Framework to integrate data and documents from any source
  - Automate and monitor processes
  - Complete end-to-end data governance
  - Anomaly detection, data cleansing, normalization
  - Calculations, formatting, mapping, aggregation, splitting, joining
  - Connectivity and integration with any SAP and non-SAP system
